SMALL IN SIZE. BIG ON FEATURES

These pocket-sized digital video camcorders come packed with all the technology and features you need to capture high quality video. With easy-to-use controls, genuine Canon optics and DiGiC processing, they're the affordable way to capture every moment.

TAKE IN MORE WITH REAL WIDESCREEN

The MV900 series lets you choose between two modes at the touch of a button: standard 4:3 mode; and Canon's high-resolution, Real Widescreen 16:9 mode, perfect for widescreen TVs.

- Unlike other widescreen systems that simply stretch the picture or crop the top and bottom, Canon's Real Widescreen lets you film a wider angle with no loss of quality.

Canon's 16:9 Real Widescreen Mode

Other Widescreen Systems

- Its fold out widescreen 2.7" LCD screen lets you see exactly what you're recording, even in Real Widescreen mode.

2.7" Widescreen LCD

SMOOTH, STEADY FOOTAGE, FROM ANY DISTANCE

Experience the rich colour, clarity and sharpness of Canon's leading optics for yourself with the 25x optical zoom lens.

- Image Stabilizer technology gives you the power to enjoy steady, smooth footage at any magnification.
- Selectable zoom speeds give an even more professional touch. Simply decide how fast you want to zoom: fast, medium or slow, and experience smooth zooming, no matter how hard you press the zoom button.

Genuine Canon Video Lens

CATCH THE FINEST DETAIL WITH DiGiC DV

Powering Canon's latest generation of digital video camcorders is the DiGiC DV processor. DiGiC DV isn't like the standard processor you'll find in some other camcorders. Colour is richer, more vibrant and lifelike, and because DiGiC DV processes more information you'll notice far greater detail in video footage.

EASY-TO-USE, STYLISH AND COMPACT DESIGN

These stylish camcorders are designed to fit into your hand comfortably and give you easy access to key controls, so operation feels completely natural.

- 10 recording modes give you the power to film great footage in all kinds of conditions. Easy mode will do all the thinking for you or select from creative control modes including: P (program), Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight and Fireworks.

Snow

Fireworks

Sports

Sunset

- The LCD screen features a horizontal marker and centre indicator to help you avoid shooting crooked video.

Horizontal marker and centre indicator

MV960's LED light

- MV960's LED light gives you the power to record in even the darkest shooting conditions.
- The lens cap has been built-in for added convenience, so you'll never have to worry about losing it.

- A clever joystick lets you easily control playback, focus, exposure and menu options with the same controller.

Joystick controller

SHARE YOUR MEMORIES

Sharing your video with friends and family is easy. Just use the DV terminal to transfer video to your computer for editing.

- The MV960 and MV940 models let you record movie clips directly to a memory card for posting online or emailing to friends and family.
- The USB interface and Canon photo software makes downloading photos from a memory card to a computer fast and easy (MV960 and MV940).
- The MV960 also comes with an Analog Line/In Converter that lets you share and store old videos digitally by simply transferring them from analog to digital.

Review your downloaded video on your computer and share it with your friends and family

PRINTING MADE EASY

Enjoy photos in a flash by printing directly from the MV960 or MV940 to any compatible PictBridge printer.

INCLUDED IN THE BOX

Battery Pack BP-2L5 (MV920 & MV940), Battery Pack NB-2LH (MV960), Compact Power Adapter CA-570, AC Cable, Shoulder Strap SS-900, Stereo Video Cable STV-250N, Interface Cable IFC-300PCU (MV960 & MV940 only), Wireless controller WL-D85A (MV960 & MV940 only), Canon Digital Video Solution Disk.

OPTIONAL ACCESSORIES

Battery Pack NB-2LH / BP-2L14, Battery Charger CB-2LWE, Car Battery Charger CBC-NB2, Soft Carrying Cases SC-2000 and SC-200, DV Cable CV-150F or CV-250F.
